About

The Early Holden Club of Auckland (Inc) began in the early '80's and in the near 20 years of its existence has grown to over 100 members who share a passion for Holdens in their original condition.

The Club accepts members whether they currently own a Holden or not. If a prospective member does possess one of Australasia's finest, the car must have been produced between 1948 and 1984 - so that means the models prior to the Commodore, the 48.215 (or 'FX') up to the WB.

The Club rules dictate that members' cars are totally original with some minor concessions to the necessities of road safety. Cars with mags, modern paint colours and interiors and body or engine alterations are not accepted. The rule of thumb is that models may only have what was available as a specification when they were produced and the driving vision for the Club is to attain a standard of vehicle that looks like it just left the showroom in the year of its manufacture...or better. We take great pride in having a large number of models that illustrate that high level of achievement.

The Committee meets once monthly, and all members are invited to attend. The Club's business is undertaken at these meetings and news, views; tips are swapped, along with magazines from all the other Holden Clubs around the world being available for reading.
